

Diagram illustrating a cross-sectional view of a container 10. The container consists of a lid 11 and a body 12. The body 12 has a bottom 13 with a central protrusion 15 and side flanges 16. The height of the body is denoted by h , and the width of the base is denoted by B . The angle of the side flange is denoted by θ . The internal pressure is denoted by p_1 and the temperature by T_1 . The bottom of the container is labeled 13, and the side flange is labeled 16. The bottom of the side flange is labeled 15. The bottom of the container is also labeled 12.
